

## AIR CONDITIONER PRODUCT FICHE

| Туре  |              | Wall Mounted | l /Heat pump /Single split |
|---|--------------|--------------|----------------------------|
| Model   | Indoor unit  |              | FSAI-SU-122AE2             |
|   | Outdoor unit |              | FSOAI-SU-122AE2            |
| Sound power lever at standard rating cond. (indoor/outdoor)             |              | [dB(A)]      | 53/59                      |
| Refrigerant type  |              |              | R410A                      |
| Global Warming Potencial (GWP) *  |              |              | 2088                       |
| SEER  |              |              | 6.1                        |
| Energy efficiency class in cooling                                      |              |              | A++                        |
| Annual electricity consumption in cooling **                            |              | [KWh/a]      | 201                        |
| Design load in cooling mode (P design)                                  |              | [KW]         | 3.5                        |
| SCOP (average season)   |              |              | 4                          |
| Energy efficiency class in heating (average season)                     |              |              | A+                         |
| Annual electricity consumption in heating(average season)**             |              | [KWh/a ]     | 805                        |
| Design load in heating mode (P design )                                 |              | [KW]         | 2.3                        |
| Declared capacity at reference design condition (average season)        |              | [KW]         | 1.95                       |
| Back up heating capacity at reference design condition (average season) |              | [KW]         | 0.35                       |
| Cooling Capacity at standard rating conditions***                       |              | [KW]         | 3.5                        |
| Heating Capacity at standard rating conditions***                       |              | [KW]         | 3.8                        |
| Power input at standard rating conditions***<br>cooling/heating         |              | [KW]         | 1, 22/1, 19                |
| Dimension   | Indoor unit  | [mm]         | 805x195x285                |
|   | Outdoor unit | [mm]         | 770x300x555                |
| Weight  | Indoor unit  | [kg]         | 7.2                        |
|   | Outdoor unit | [kg]         | 25.5                       |
| Power source  |              |              | $230V^{\sim}50$ Hz 1ph     |

\* Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to [2088]. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be [2088] times higher than 1 kg of CO2, over aperiod of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.

\*\* The annual energy consumption kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.

\*\*\* The standard rating conditions:

cooling -outdoor 35°C DB/24°C WB -indoor 27°C DB/19°C WB heating -outdoor 7°C DB/6°C WB -indoor 20°C DB/15°C WB

Operating Range: Indoor **Outdoor** +32° C  $+17^{\circ}$  C  $^{\sim}$ −15° C +50° C Cooling mode  $+10^{\circ}$  C  $^{\sim}$   $+32^{\circ}$  C Dry mode  $0^{\circ}$  C  $\sim$ +50° C  $0^{\circ}$  C  $^{\sim}$  +30  $^{\circ}$  C −15° C +30° C Heating mode Tha maximum humidity: 80%

If air conditioner is used outside of the above conditions, certain safety protection features may come into operation and cause the unit to function abnormally or demage.
